

## GC-Pro & RD12 Pre-Wired Kit

Agrowtek offers a pre-wired kit for fast and error-proof installation of a GC-Pro system with greenhouse and custom relay panels. Simply connect the two pre-wired connectors together and connect circuits to the RD relay dry-contact terminals. Installation is quick and easy.

Cables pre-wired to controller and RD relay. Factory tested and guaranteed.

Connect two plugs together for fast, error-free installation.
