

FILL CONTROL | DRAIN CONTROL

Electronic optical "liquid level control system" includes two liquid sensors for high and low "fill" or "drain" control of fluids in tanks, reservoirs, etc. Only power and a valve or relay is required to complete the level control system; no external controller required. Easy to wire and setup. Includes one standard and one latching sensor. Compatible with 5-24Vdc valves and relays. Available with optional VX1 water valve kit or RX1 outlet kit for direct operation of 120Vac pumps, valves and other equipment.

SXL-D Drain Sensor Kit

SXL-F Fill Sensor Kit

When liquid is above the low sensor (SXL-1, wet-on) its output provides power to the high sensor (SXL-1X, wet-on latching.) When liquid rises above the high sensor, its output latches on. The high sensor's output is used to power a device (such as a control relay for a pump or valve) until it is reset by the low sensor's output turning off.

When liquid is below the high sensor (SXL-2, dry-on) its output provides power to the low sensor (SXL-2X, dry-on latching.) When liquid falls below low sensor, its output latches on. The low sensor's output is used to power a device (such as a control relay for a pump or valve) until it is reset by the high sensor's output turning off.

Specifications

Voltage Input:	5-24Vdc
Output Current:	Max 1A (sourcing)
Current Consumption:	20mA per sensor
Mounting Thread:	1/4" NPT
Hex Size:	3/4" (19mm)
Body Material:	Polysulphone
Temperature Range:	-20 to 80°C (non-freezing)
Wire Gauge:	26 - 16 AWG

	Draining	Filling
High Sensor	SXL-1B (Wet Latching)	SXL-2 (Dry On)
Low Sensor	SXL-1 (Wet On)	SXL-2B (Dry Latching)

Optional Control Kit

RX1 Outlet relay kit can control 120Vac/12A pumps or valves and includes a 24Vdc wall power supply and adapter cable to operate the sensors and RX1. CSA Listed.

VX1 Water valve kit handles up to 20GPM @ 150psi and includes a 12Vdc wall power supply and adapter cable to operate the sensors and valve. UL Listed.

See SXL and RX1 manuals or contact Agrowtek Inc. for warranty terms and conditions.
